No Owner shall dump or bury debris including, in particular, construction debris, concrete, petroleum products, fertilizers, or other potentially hazardous or toxic substances in any drainage canal or elsewhere within the Subdivision, except that fertilizers may be applied to landscaping on Lots provided care is taken to minimize runoff.

No rubbish or debris of any kind shall be dumped, placed, or permitted to accumulate upon any portion of the Subdivision, nor shall any nuisance or odors be permitted to exist or operate upon or arise from the Subdivision, so as to render any portion thereof unsanitary, unsightly, offensive, or detrimental to the persons using or occupying any other portions of the Subdivision. Any Owner, or his family, tenants, guests, invitees, servants, or agents, who dumps or places trash or debris upon any portion of the Subdivision shall be liable to the Association for the actual costs of removal thereof or the sum of \$150.00, whichever is greater, and such sum shall be added to and become a part of that portion of any assessment next becoming due to which such Owner and his Lot or Dwelling are subject. The Association may also place a lien on the Lot to further secure payment.

- 7.17 Vehicles, Equipment and Parking. Each lot shall provide adequate off-street, paved parking for at least four (4) vehicles. Any residence constructed on a Lot must include off street paved parking for all vehicles operated from that residence. Residents will not be allowed to park on

the streets of the subdivision for no more than four consecutive hours nor will they be allowed to keep vehicles in a state of disrepair in a place that allows them to be seen from the street.

No automobile, truck or any vehicle of any type including trailers, boats, motor homes, sporting equipment or any other equipment may be parked or stored on any street or front lawn. Front lawn is defined as any non-paved area between the street curbing and the front wall of the residence. No truck, trailer or any other type vehicle with load capacity in excess of one (1) ton, nor any school bus, church bus, or hired vehicles carrying over twelve (12) passengers is to be stored or parked on any driveway, between the street curbing and the front wall of the residence, except in making deliveries. No commercial or industrial type equipment including but not limited to bulldozers, tractors, tractor trailers, dump trucks or any other heavy equipment may be parked or stored on any lot or any driveway located on any lot.

Vehicles of any nature or kind which are not in complete operating condition may not be stored on any Lot for a period of more than seven (7) days, except in a closed garage. Major repairs to vehicles are not permitted in a place that would allow viewing from the street.

No boats, boat trailers, motor homes, recreational vehicles, campers or boat rigging can be parked or stored on any Lot(s) for a period of more than seven (7) days unless stored within a garage, carport, or outbuilding, or within an enclosed side and/or rear yard area.

- 7.18 Mineral Operations. No oil, gas or mineral drilling, development operations, refining, quarrying or mining operations of any kind shall be permitted upon or in any Lot, nor shall wells, tanks, tunnels, mineral excavations or shafts be permitted upon or in any Lot. No derrick or other structure designed for use in boring for oil or natural gas shall be erected or maintained.
- 7.19 Sale of Property. The seller and purchaser of a Lot shall give written notice to the Association within ten (10) days after the sale of said Lot in the subdivision.
- 7.20 Storage of Personal Property. All personal property kept on the premises of a Lot shall be either kept and maintained in a proper storage facility, or shall be stored in a fenced yard at the rear of the home. However, nowhere on the Property shall this provision be construed to permit junk cars, old appliances, or the like from being kept anywhere on the Property, including in the front, on the side, or to the rear of the Property. Any personal property, if it is to be stored on the Lot, is to be stored in a completely enclosed structure approved by the ARC. Among other remedies, and after thirty (30) days notice to Owner, the Association or its agent may come upon the Lot to remove property being stored in violation of this provision, all at the expense of the Owner, which shall constitute a lien against said property. An automobile or other vehicle shall be considered a "junk car" under this provision if it is immobile for a period of thirty (30) days or longer, or does not have a current license tag.
- 7.21 Conflict with Other Laws and Regulations. Nothing in these restrictions and covenants shall be construed to minimize, lessen, or reduce the minimum requirements of the Comprehensive Zoning Ordinance and/or the Building Code of the Parish of Plaquemines or other appropriate

and governing laws and regulations. In case of a conflict of laws, the stricter or more stringent regulation shall take precedence and govern.

Fences are to be constructed of cedar, treated pine, brick, vinyl, or better/equivalent material, in a conventional, industry approved designed shape with a height not to exceed seven (7) feet. Chain link fences are not allowed except along the rear Lot line of those lots bordering Industry Canal. No fence shall be permitted or constructed with an unfinished side fronting or facing a street. All fences, fence plans and fence materials must be approved by the ARC.
- 8.10 Perimeter Fences. The Developer may construct a perimeter fence. In the event the Developer constructs a perimeter fence, each Lot Owner shall be responsible for the upkeep, maintenance and repair of the perimeter fence bordering Owner's Lot. Lot Owner(s) agree to repair the fence within thirty (30) days of damage or noticeable disrepair. If repairs are not made within thirty (30) days, Developer or the Association reserves the right to make such repairs and charge the Lot Owner the cost of these repairs. Each Lot Owner accepts liability for civil damages arising from perimeter fence located on Owner's Lot; liability shall commence at purchase of the Lot.

8.11 Air-Conditioning and Heating Units. No window air-conditioning or heating units shall be installed in any Dwelling; garage and outbuildings may have window mounted heating or air conditioning units not visible from the street. 8.15 Exterior Maintenance. All owners must maintain structures, equipment or other items on the exterior portion of the Dwelling in good repair and keep same safe, clean and orderly in appearance at all times, and maintain such structures, equipment or other items in an attractive manner. The ARC may determine whether the structures, equipment or other items are clean, orderly in appearance, and properly painted or preserved. If the Association notifies the particular Owner in writing that said structure, equipment or other items fail to meet acceptable standards commensurate with other structures, equipment and other items in the subdivision, said Owner shall thereupon remedy such conditions within thirty (30) days to the satisfaction of the ARC, and failing to remedy such condition, the Owner hereby covenants and agrees that the Association may perform such necessary maintenance, but is not obligated to perform the same, or take such actions as will bring the said structures, equipment or other items up to acceptable standards; all such repairs and actions are at the sole expense of the Owner. Such maintenance as to a vacant lot may include the mowing of grass and weeds, the trimming of trees and shrubs, and the removal of trash and litter. The cost of any such maintenance shall be assessed against the Lot upon which the maintenance is performed, and shall be due and payable within five (5)

days after written notice of the assessment is mailed to the Owner. The cost of any maintenance shall also constitute a lien against the Lot and a personal obligation of the Owner, and may be enforced and collected in the same manner as provided for the collection of delinquent assessments.

- 8.16 Miscellaneous. No foil or other reflective materials shall be used on any windows for sun screens, blinds, shades, or other purpose. Except within the fenced portion of the Lot, outside clotheslines or other outside facilities for drying or airing clothes are specifically prohibited and shall not be erected, placed, or maintained, nor shall any clothing, rugs, or other item be hung on any railing, fence, hedge, or wall.

## ARTICLE IX CONSTRUCTION REGULATIONS

- 9.1 General. The Association shall apply these construction regulations to all Owners, and to all general contractors, builders, sub-contractors, suppliers and other service personnel (hereinafter referred to as the "Service Personnel"), while in the SpringWood Estates Subdivision. Each Owner shall be responsible for, and shall familiarize any and all Service Personnel working on Owner's Lot, with these regulations. The Association may enforce these regulations, and notification of any violation shall be sent to the Owner of the Lot(s) responsible, defining those items not in compliance with the regulations. Upon receipt of the notification, the involved Owner shall have five (5) working days to correct the situation, failing which the Association may take the necessary action to correct the violation. The actions and remedies available to the Association shall include, but not be limited to, immediate injunctive relief, charging the Owner for any and all corrective measures; withholding ARC review and/or approval until such violations are corrected; and denying entry to Service Personnel, thereby preventing work on the Lot.

Any damage done by Service Personnel to common properties, Lots, streets and curbs, mailboxes, walls, fences, landscaping, and any other improvements, shall be paid for by the Owner for whom the involved Service Personnel was working.

- 9.2 Noise. No noxious or offensive noise(s) or activities shall be carried on any Lot. Loud radios or noise shall not be allowed within the subdivision, whether produced by Service Personnel or otherwise. Normal radio noise levels are acceptable unless complaints are received. Speakers shall not be mounted on vehicles or outside of the Dwelling under construction.
- 9.3 Construction Time. Construction of each residence must be substantially complete and enclosed for occupancy by the Owner within one (1) year of the issuance of a building permit. If such improvements are not completed within the time period specified in this section, then the Lot Owner shall remove the foundation from the Lot and restore the Lot to a clean and attractive appearance. No building shall be occupied or used as a dwelling before the exterior has been finished, the sewerage connected to an operational collection line, and all requirements of the state and parish Boards of Health complied with.

Construction activities that may disturb other Owners shall be limited to the hours of 7:00 A.M. to 7:00 P.M., Monday through Friday, and 8:00 A.M. to 5:00 P.M. on Saturdays and Sundays. Sunday construction is discouraged.

- 9.4 Trash Handling. The Owner shall install a construction fence along the perimeter of the Lot for the purpose of keeping trash and construction materials within Owner's Lot. Trash and discarded materials such as lunch bags, cans and other materials, shall be removed daily. Stockpiling of trash or any material on adjacent Lots or streets is strictly prohibited. Any trash, garbage or debris shall not create a nuisance to the adjacent Property Owners. If trash and debris on a job site becomes a noticeable problem, the Association shall give notice to the responsible Owner requiring clean-up of the site within three (3) working days. If, after the 3-day period, the site has not been cleaned, the Association may remove any and all trash and debris, and assess the Owner and Lot with all costs including attorney's fees incurred or \$100.00 whichever is greater. Additionally, the ARC may require the Owner to maintain on the Lot a dumpster for the purpose of discarding all trash and debris.
- 9.5 Concrete Slabs for Residence. Concrete slabs for residences should be poured through the use of a pump truck. Driving on neighboring lots is strictly prohibited without written permission of the Lot Owner. All damages to neighboring lots incurred in the pouring of the slab (including ruts) shall be immediately repaired by the contractor and/or Owner.
- 9.6 Facilities. Service Personnel shall use only the utilities provided on the immediate site on which they are working. Portable toilets are the responsibility of the Service Personnel and shall be located out of the right of way, and sanitized at least weekly. Owner shall provide adequate facilities for service personnel on each individual site.
- 9.7 Damage to Utilities. If any telephone line, television cable, electrical, water, sewer, or other utility lines are cut or damaged, it shall be the responsible party's obligation to immediately report such incident to the appropriate utility company and to the Parish authorities.
- 9.8 Service Personnel Vehicles. Service Personnel shall limit parking to the street immediately in front of the construction site, or to the site itself. Parking on adjoining lots is strictly prohibited. Service Personnel shall avoid blocking the street, and shall limit the duration of any necessary blockage to a minimum. No vehicles belonging to or on site at the request of Service Personnel may be left in the subdivision overnight. Construction equipment may be left on site while in use, but must be kept off the street.

Washing any truck or vehicle on the street or another Lot is strictly prohibited; Concrete delivery trucks may be washed only on the immediate construction site. It is the responsibility of the Owner for whom the Service Personnel is working to provide clean-up. If Owner does not meet this obligation within three (3) days of notice, the Association may take control of the clean-up, and all costs thereof or \$200.00 whichever is greater, shall be assessed to the Owner. Spills shall be reported to the Developer and the Association as soon as possible.

- 9.9 Business Signs. Business signs or other forms of advertisement are only permitted during actual construction, and are limited to eight (8) square feet maximum area. Building permits shall be posted as required, and protected from the elements. No sign or permits shall be attached to trees.

## ARTICLE X GENERAL PROVISIONS

- 10.1 Term/Amendment. Each provision of this instrument shall remain in full force and effect for a period of thirty (30) years, and thereafter shall be automatically extended for successive periods of ten (10) years, unless within one (1) year prior to the expiration of the initial thirty (30) year period, or within one (1) year prior to the expiration of any ten (10) year period of extended duration, the covenants and restrictions contained in this instrument are terminated by a written instrument signed by the record Owners of not fewer than two-thirds (2/3) of the Lots subject hereto.
- Any provision contained in this instrument may be amended by the recording of a written instrument or instruments specifying the amendment or the repeal, executed by the record Owners of not less than two-thirds (2/3) of the Lots subject to these covenants and restrictions as of the date of the instrument of amendment provided, however, that if the Developer is directly or indirectly (that is, as mortgagee) the Owner of any Lot as of the date of such amendment, no amendment shall be effective unless accompanied by the written consent of the Developer. Developer shall have the sole and exclusive authority to amend this agreement to clarify any ambiguities or conflicting terms therein for a period of six (6) years after the date of this agreement.
- 10.2 Notices. All notices, demands and/or requests shall be in writing. Upon the purchase of any Lot(s), such purchaser shall furnish the Board with a mailing address. Thereafter all notices, demands and requests required to be sent to Owner by these restrictions and covenants may be sent to that address. Notice may be by Certified Mail. Failure of Owner to provide appropriate address allows notice to be placed upon the Lot. Owner agrees to immediately notify Board of any address changes. All notices to the Board or Developer shall be mailed to 8311 Highway 23, Suite 102, Belle Chasse, LA 70037, or at any address later designated by the Board or Developer.
- 10.3 Enforcement. The Developer, the Association (through its Board of Directors), and any Lot Owner shall be entitled to seek enforcement of these covenants and restrictions by any proceeding against any person or persons violating or attempting to violate any covenant or restriction. The object of any such action may be to restrain violation, recover damages, recover costs and expenses (including attorney's fees), or any combination thereof.
- 10.4 Forbearance. The waiver by the Developer, Association or Owner(s) of any Lot(s) or the failure of Developer, the Board or Lot Owners to strictly enforce the restrictions and covenants herein contained shall not be construed nor deemed to be a waiver of any and all rights of such parties at all times to strictly enforce such restrictions and covenants.

10.5 Severability. Invalidation of any of these covenants by judgment or court order shall in no way affect any of the other provisions which shall remain in full force and effect. Nothing in these covenants shall be construed to conflict with any law or ordinance of the United States, the State of Louisiana or the Parish of Plaquemines or with the rules or regulations or requirement of any of its agencies, having jurisdiction over the use, development and construction of houses in the Parish of Plaquemines, but in the case of an apparent conflict, the greater or more stringent requirement shall take precedence or govern.
